PORTFOLIO

STEVEN JONATHAN

ABOUT ME

I am currently an undergraduate student in National Dong Hwa University, Taiwan. I have a wide range of interest, especially within arts and undertaking various creative projects.

EDUCATION

2019 – Present

National Dong Hwa University

Bachelor of Computer Science and
Information Engineering

GPA: 3.7/4.5

MY PROJECTS

Chromesthesia (Rhythm Game)

Awarded National Dong Hwa University Undergraduate Project 2022 Excellence Awards.

A swipe based android rhythm game that has unique features:

- Swipe as main gameplay.
- Swipe anywhere to make it easier for the players to play anywhere, regardless of their screen size, and on whatever condition.
- Sound processing to simulate song color.

MY PROJECTS

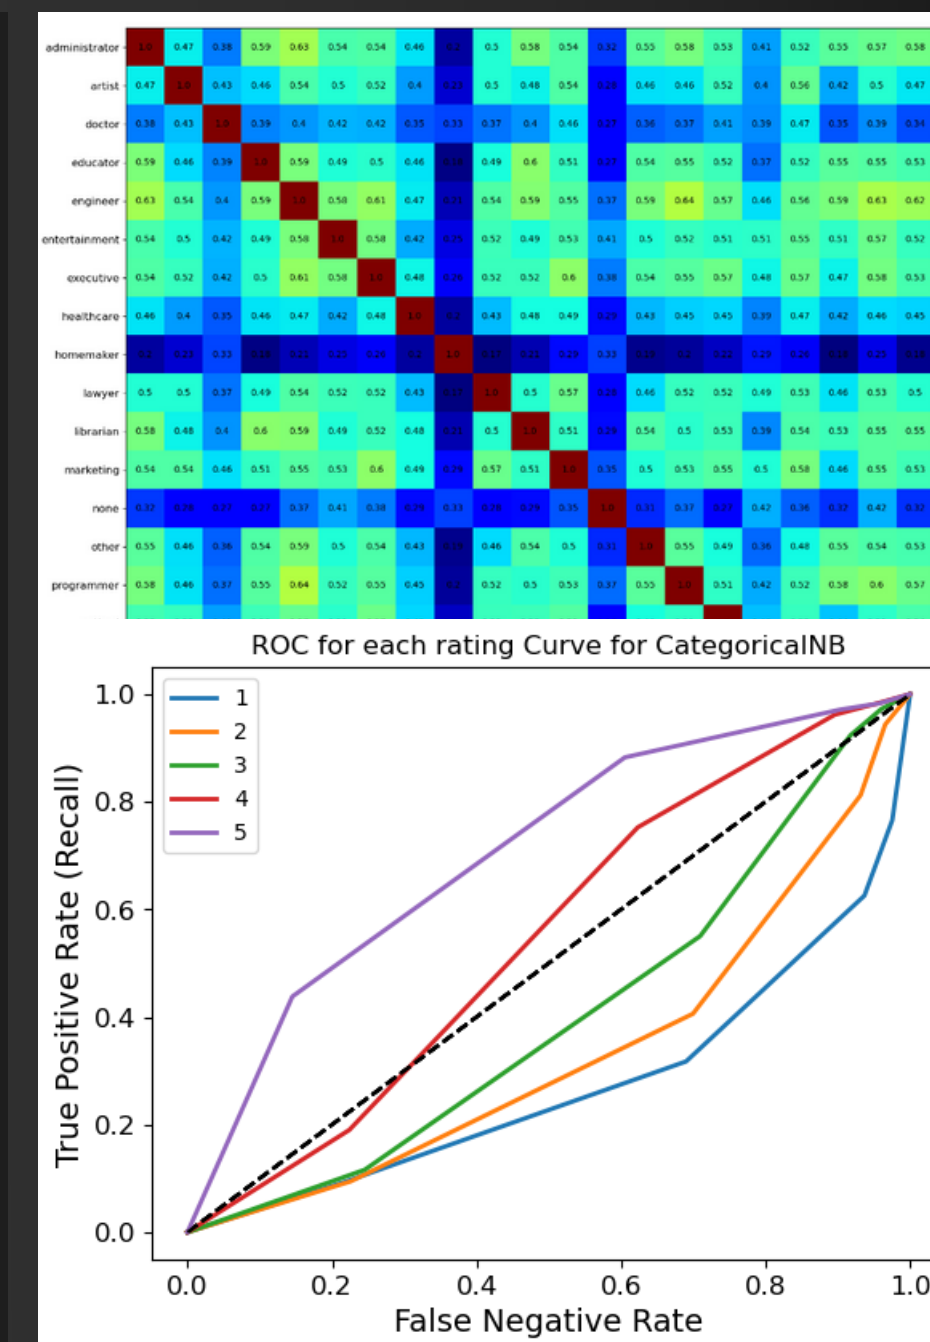

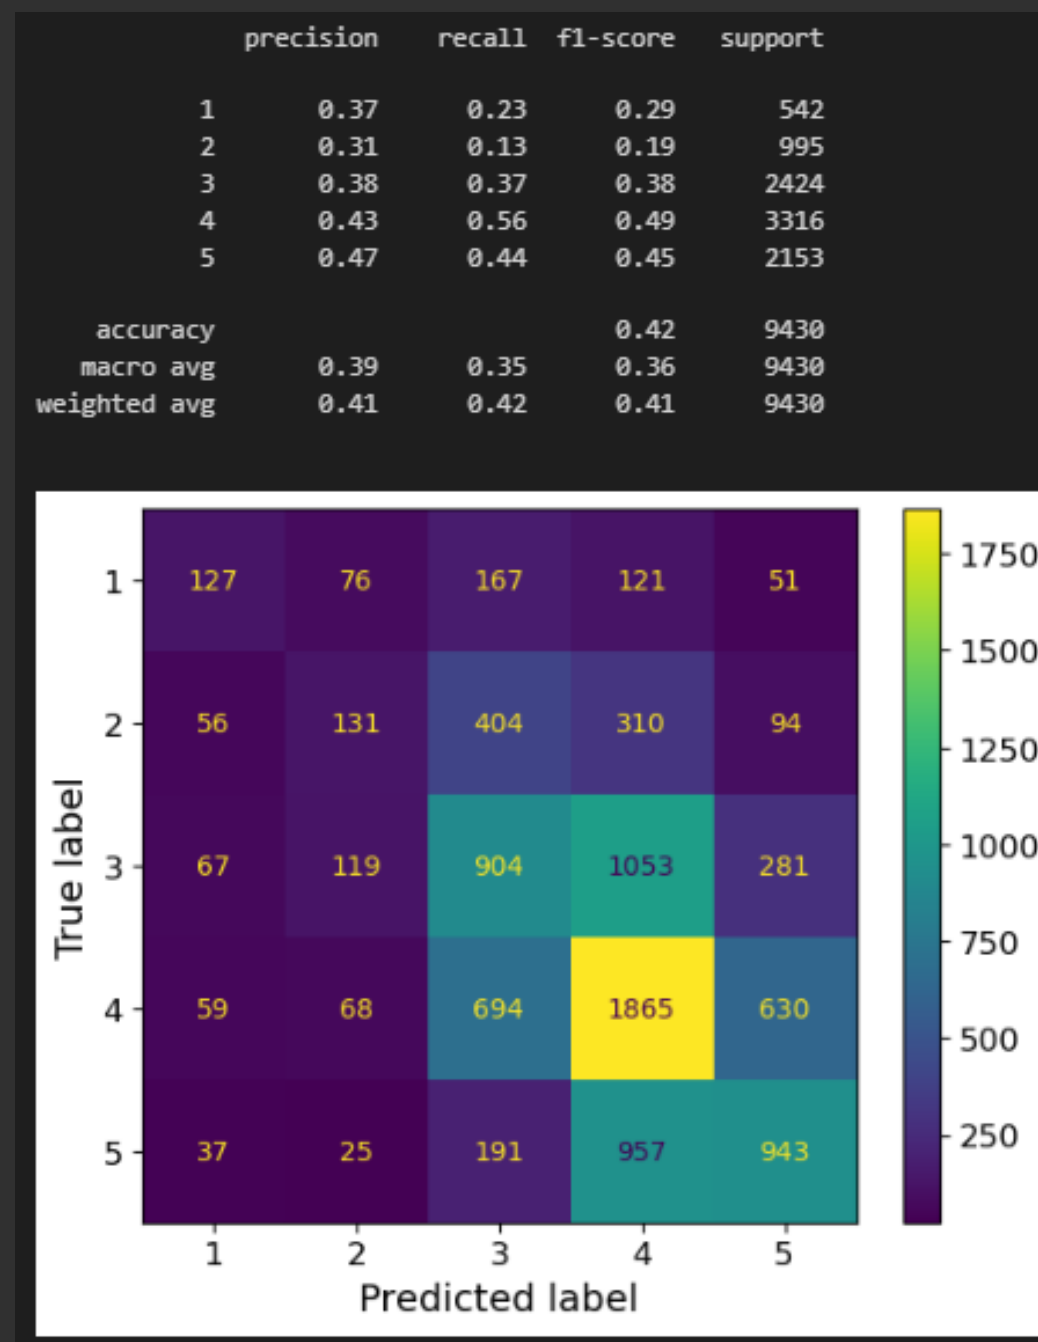

Movie Lens Datasets Rating Predictor

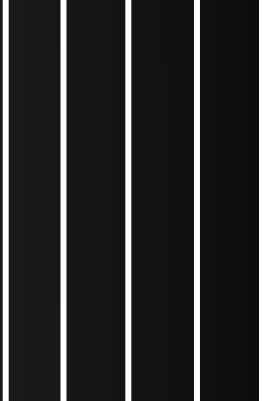

The dataset is collected from Grouplens Research website.

The project has:

- Data Analysis that compares the correlation between users or items.
- Models and clusterings including Kmeans, Naive Bayes.
- For each result from the models, has analysis including: precision recall + curve, similarity matrix, ROC curve.

The motivation for this project is to compare which method is the best for this type of dataset.

VOLUNTEER & ORGANIZATION

PPI NDHU - HUMAN RESOURCES

June 2022 - June 2023

- Assist new international students that are arriving to Taiwan in various ways such as:
